A LEADER IN THE HOME BUILDING INDUSTRY

Summit Stairs & Millwork designs and manufactures innovative, high-quality stair products, stair components and exterior columns for some of the country's largest tract home builders and siding companies.

But our position as industry leader comes not only from our sought-after products or our 30-year history. Rather it's that our customers trust us because we support them with good prices, deep industry knowledge, and service that they can depend on.

BUILDING TRUST

Choosing a partner in the construction industry is an important decision. You want to work with a company that is **reliable**, offers high-quality, **innovative** products, and both understands and **truly cares** about your business.

You want someone **knowledgeable**, who can **anticipate** your needs or **troubleshoot** issues. You want someone to build a strong working **relationship** with. Someone you look forward to calling because you know everything will be **taken care of**.

Bottom line, you want someone you can trust.

EXTERIORS

DESPITE OUR NAME, WE ARE WELL KNOWN FOR MORE THAN JUST STAIRS. WE OFFER COLUMNS, MILLWORK, RAILINGS, MOLDINGS, AND ACCESS DOORS.

OUR INNOVATIVE, BENDABLE COLUMN WRAPS ARE POPULAR BECAUSE THEY ARE FAST AND EASY TO INSTALL.

SUMMIT STAIRS' QUICK TREAD

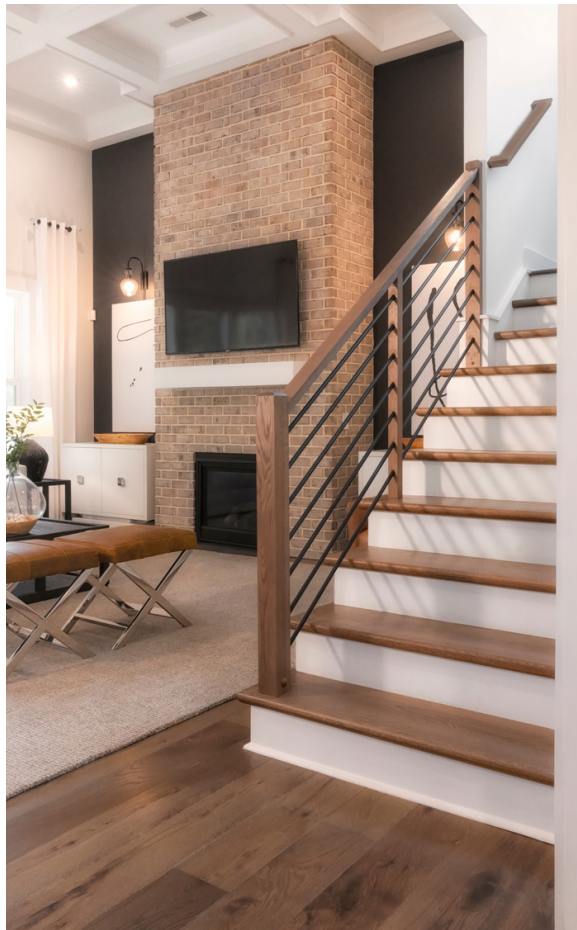

The Quick Tread System is the next generation of high-quality staircase systems. By pre-fabricating key components of the staircase, the stair system is designed to provide a superior quality finish and speed up the building cycle. This greatly reduces on-site labor and cost headaches for you. The Quick System is offered in three distinct packages to meet your need for product differentiation between home models, while providing upgrade options to maximize profit.

HOW IT WORKS

Our patented Quick System has three components that differ from the typical stair system providing numerous benefits to both home builder & home buyer.

1. The Quick Tread is made of high-quality PVC and rests on the Quick Step.
2. The Quick Step can be made of OSB or Pine.
- 3 & 4 Our stringers and risers have a layer of PVC glued on the inside face, eliminating raised grain.

QUICK TREAD SYSTEM TIERED PACKAGES

Price, design, and customization options allow you to increase home value, maximize profits, and provide home owners the ability to add more custom touches to their new home. All packages offer a quality stair product, fast installation, and versatility.
